WE DID IT!

Thousands voted, our voices were heard, and the American Anthropological Association has formally passed the resolution to boycott Israeli academic institutions! This makes the AAA the largest academic association to endorse the Palestinian [call](#) for an academic boycott!

This breakthrough would not have been possible without the support and hard work of so many of you.

THANK YOU!

In solidarity,

“John Jackson, a scholar in African American studies, has discussed the phenomenon of antisemitism among certain Black Israelite groups. In his book "Thin Description: Ethnography and the African Hebrew Israelites of Jerusalem," Jackson explores how some members of the African Hebrew Israelite community have adopted antisemitic beliefs, often stemming from a desire to assert their own identity and history. He examines the complex interplay of race, religion, and identity within these groups.”
